

JOB POSTING

VIDEO/MOTION GRAPHICS EDITOR

Department: Creative

Type: Full-Time

Summary:

The Kansas City Symphony is expanding its creative department, and we're looking for a video/motion graphics editor to work on a variety of creative projects. You can think of this role a bit like being part of a "small film crew" or independent ad agency. Working with the Creative Director and Content Creator, you will constantly be editing new pieces of content that tell the various stories of the orchestra members and the pieces they perform.

Essential Duties and Responsibilities:

This position will be responsible for creating all final video edits produced by the KC Symphony. You should be able to produce beautiful edits for all lengths and platforms—from 15-second vertical Instagram Reels to long form interview pieces, or even feature-film length work. You should be comfortable working in multiple styles—anything from creating dazzling VFX graphics, to text & transitions, to simple, elegant edits with little to no graphics. This is a fulltime, onsite position, so remote work is not possible.

Required Qualifications:

- Expert level proficiency with video editing programs like Adobe Premiere Pro or DaVinci Resolve
- Advanced to Expert level proficiency with motion graphics programs like After Effects or Cinema 4D
- An elevated aesthetic sense. Understand that each project requires its own unique style of edit. Avoid a "cookie cutter" approach to your edits/graphics.
- The ability to work very quickly. You should be able to turn raw video footage into a finished edit suitable for multiple platforms like YouTube, Instagram, TikTok & Facebook with very short turn-around times.
- An online video reel that showcases your recent work

Please send your resume, cover letter, and previous work examples to pbuchanan@kcsymphony.org
